READY TO SERVE

Ukraine

Ukraine

Just as a single drop creates ripples, one person's action creates waves of positive change. In 2023, Global Care Force volunteers cared for thousands of people around the world, having a transformative life experience through volunteer service.

"This was my second time volunteering at the border. The little bit we can offer shelter guests by helping them with their health problems is quite rewarding."

— Marilyn Prince-Fiocco, MD, Juárez, Mexico

"My life will forever be changed by the relationships built and people met while volunteering in Ukraine. It's not always easy, but knowing we made a difference made it all worth it."

— Angela Whaley, RN, Ukraine

"To serve the homeless Navajo community was a rewarding opportunity and much appreciated by the community."

— Don Dunning, Gallup, New Mexico

OUR VOLUNTEERS ARE	60% Providers (MD, DO, PA, NP)
	29% Nurses, Paramedics & EMTs
	11% Non-Medical

BRINGING HOPE

Ukraine

Our work is only possible through strong partnerships formed around the world.

In Ukraine, Global Care Force volunteers provide critical support to communities left with little to no health care due to the war. Hundreds of people are treated each month for chronic and acute illnesses, given free medications, and peace of mind that more volunteers will follow to ensure continuity of care.

Volunteers serve without distinction and bring hope to migrants and asylum seekers at the southern border. With resources already overwhelmed, volunteers help ease the burden on the local healthcare system by providing medical care to shelter guests in Juárez, Mexico, and El Paso, Texas.

"We've seen a big improvement in the health of the people in our villages thanks to the free medicines and returning volunteers. I want to thank them for their big hearts and the warmth and care for our people."

— Dr. Yulia P., Ukraine Clinic Host

"I didn't know I could feel so good! Thanks to the free medications, my blood sugar levels have never been this low before."

— Ukrainian Patient

"Asylum seekers arrive suffering from dental and physical issues such as bloody feet from miles of walking. The children are very dehydrated. They suffer from depression. The compassion and kindness of your volunteers gives them renewed hope."

— Luis Avila, Juárez Shelter Director

"I was asked why I made such a dangerous journey to the border with my children. We wanted to eat. There was no food where we came from. The volunteer who treated me and my children was kind and caring and did not treat me as a lesser person."

— El Paso Patient

"The clinic was wonderful. They were not afraid to come and help us. They 'heard' me and listened to me. They helped control my chronic condition. I was given free medication needed to help me. We will look forward to the next visit".

— Ukrainian Patient

TRANSFORMING LIVES

Juarez, Mexico

2,468 PATIENTS	Received Care & Treatment
3,496 HOURS	Devoted to Serving Others
\$102,107.11	Medicines Provided FREE to Patients

Message from Our Founder

I started Global Care Force so others could discover an inner power that comes from serving and the transformation it brings. I am proud and humbled by all the compassionate volunteers who come from around the world with a heart to serve with us!

As Global Care Force's reputation as a premier volunteer organization grows, so do the number of calls for help from organizations caring for those difficult and dire situations. We stand ready to help areas like the Middle East, where there is an urgent need for medical help for those impacted by the Israel-Hamas conflict.

I invite you to share your time, talents and treasures to be a drop that starts a ripple, and becomes a tidal wave of impact!

With gratitude,
Gary Morsch, MD, MPH
Founder and Executive Chairman

FRIENDS OF THE FORCE

Our deepest gratitude and appreciation to our donors supporting our purpose to transform lives through volunteer service.
