

What We Do

We connect volunteers with partner organizations serving people in need.

We provide tools and resources for individuals and groups to raise awareness and financial support for their volunteer service.

In times of crisis, we provide medical support to healthcare professionals caring for people in need.

"I learned life isn't just about me and what I want. My life is now about what I can give to another person to make their life a little better."

- Volunteer Jodi Cook (pictured above)

Volunteers in Action

Global Care Force volunteers are serving in California, Mexico, New Mexico, Poland, and Ukraine.

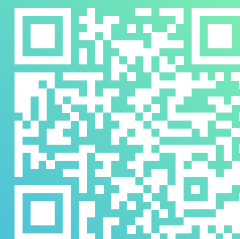

Orthopedic surgeon **Dr. Jim Pettey, MD** (pictured) assessing

medical needs in Ukraine. *"I was impressed with the quality of care our Ukrainian medical colleagues provided under these conditions of hardship."*

- Volunteers are caring for impoverished men near the end of life at a hospice in Pacifica, California.
- Volunteers are serving as shelter assistants in Gallup, New Mexico, at St. Joseph's Soup Kitchen and Homeless Shelter.
- Volunteers are attending to the "abuelos," elderly men with chronic illness experiencing homelessness and poverty in Rosarito, Mexico.

Global Care Force can only achieve its mission with your support. We have accomplished a great deal, but much remains to be done. **Please consider a gift today.**

Transforming Lives Through Volunteer Service

2022 Mid-Year Update

Ukraine Humanitarian Relief

With disrupted supply chains, doctors at City Clinical Hospital #4 in Kyiv contacted Global Care Force. They needed medicine, medical supplies, and negative pressure wound therapy systems that accelerate healing and prevent infection.

Generous donors answered the call so our volunteers could deliver thousands of doses of antibiotics and painkillers, tens of thousands of dollars of negative pressure wound therapy systems, body armor for medical teams, and many other life-saving supplies.

Global Care Force Founder, Dr. Gary Morsch, led a volunteer team to Ukraine in May, visiting cities near the front lines, meeting with doctors and hospital officials to better understand their needs and how Global Care Force volunteers can help. Dr. Morsch saw firsthand the significant role negative pressure wound therapy systems have in the healing process and the need to deliver even more.

Our Gratitude and Appreciation

Global Care Force deepened existing partnerships and forged new ones to make deliveries possible to Ukraine. Our thanks to Blessings International, Church of the Resurrection, Clark County Hospital, Cork Medical, Heart to Heart International, Dr. James Kerr, Lawrence, Kansas Police Department, Nazarene Compassionate Ministries, Oklahoma City First Church of the Nazarene, Dr. James Pettey, Project C.U.R.E., University Health, and many others.

The Need

Global Care Force volunteers witnessed the ravages of war on the physical, mental and spiritual health of people in cities and villages across Ukraine. Our volunteers traveled with faith-based and humanitarian organizations delivering medicine, food and providing comfort along the way. The need for healthcare volunteers in Ukraine remains great.

Next Steps

Global Care Force plans to send primary care and surgical teams and additional supplies to communities in Eastern Ukraine. With no end in sight for the war, Global Care Force volunteer medical teams will be ready for as long as needed to care for our Ukrainian friends.

Our Volunteers Are Serving in Poland and Ukraine

"You brought new hope which gives us the energy to work more for saving lives and approaching our duty. You are our guardian angel!"

-Dr. Lev Prystupiyuk, City Clinical Hospital #4, Kyiv, Ukraine.
